What is the Osaka ATC Green Eco Plaza?

The Osaka ATC Green Eco Plaza is the first permanent exhibition hall of its kind in Japan, established with the purpose of divulging the latest information from businesses and organizations engaged with environmental business and management to the general public. Occupying an impressive 4,500m² of space, the venue hosts Japan Environment Association "eco-mark" certified products, initiatives for promoting a recycling-orientated society, and exhibits plant factories and more, all of which facilitate opportunities to learn about general environmental issues. As a site for education, training, observation and acquiring all manner of knowledge, it sees an average of 100,000 visitors on an annual basis.
