

First in Japan!  
Permanent exhibition hall for environmental businesses

# Osaka ATC Green Eco Plaza

Bringing together the “present” and “future”  
of environmental businesses/solutions.

We introduce companies, organizations, and research institutes that engage in new businesses that can operate in harmony with the environment. Moreover, as a nexus point for environmental businesses, many seminars and events are held throughout the year.

Osaka ATC Green Eco Plaza is a comprehensive exhibition center with a total area of 4500 sq m, which has been zoned by subjects. Together with organizing regular exhibitions on many case examples related to environmental businesses, we constantly organize timely events according to the shifting trends of rapidly changing society. Moreover, we will file and process information harvested, as an information hub for environmental businesses, and will actively commit to information services that provide information in various ways.

## Permanent exhibition of environmental initiatives and products

At the 3 R education zone, knowhow is introduced with reduction of waste as its focus.

A vegetable production plant is installed inside the building

With the cooperation of Japan Environment Association (Foundation), we exhibit a broad range of eco-mark certified products.

Zone with security/safety of food and environment of food as the focus. A vegetable production plant is installed.

At the 3 R education zone, knowhow is introduced with the reduction of waste as the focus.

### 3 R Education Zone

**Biotope Plaza**  
A seminar room that accommodates a maximum of 150 people.

Visited by corporations for environmental training purposes.

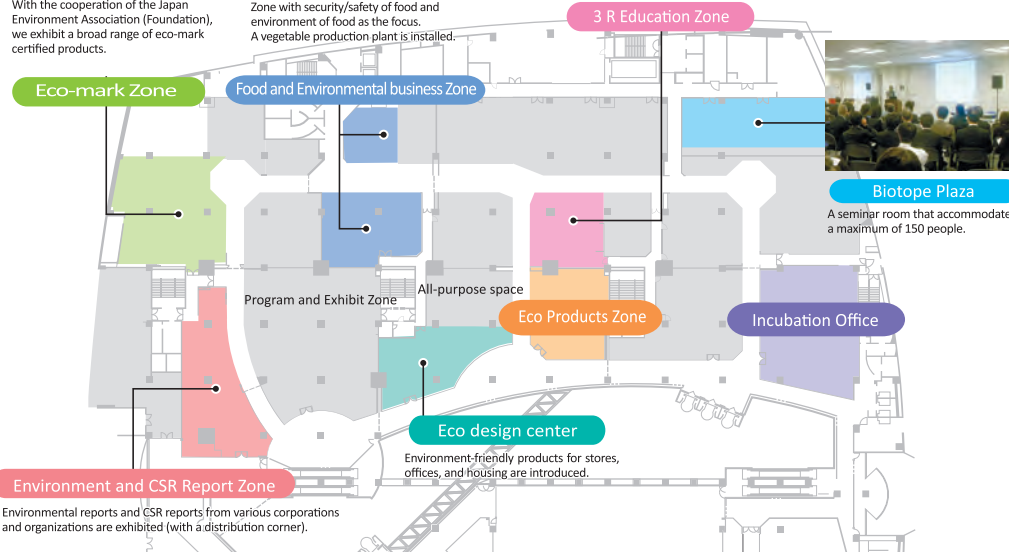

Used for environmental education for students, from elementary, middle, and high schools to university.

## Site tour

Many customers visit from overseas as a part of observation and sightseeing.

## In business scenes

At the Osaka ATC Green Eco Plaza, we introduce the latest information on environmental problems, providing hints for environmental responses and countermeasures that are essential for corporations. Moreover, with respect to environmental businesses, which will increasingly diversify in the future and are expected to continuously grow by expanding their possibilities, we support new environmental businesses through the provision of corporations' advance program information and seminar sessions.

Seminars, to which specialists in environmental businesses are invited, are held constantly.

The latest information and trends on environmental businesses can be obtained.

## Daily lifestyles

Various problems related to the environment, such as air, water, undesired noise, waste, energy, and global warming issues are becoming complex as the years go by, and they are challenges to be solved urgently. At the Osaka ATC Green Eco Plaza, an exhibition of the latest technologies that help the environment by addressing these challenges can be viewed. Moreover, seminars and events that help to form the environment are held constantly.

A picture of an experiment that uses permeable bricks

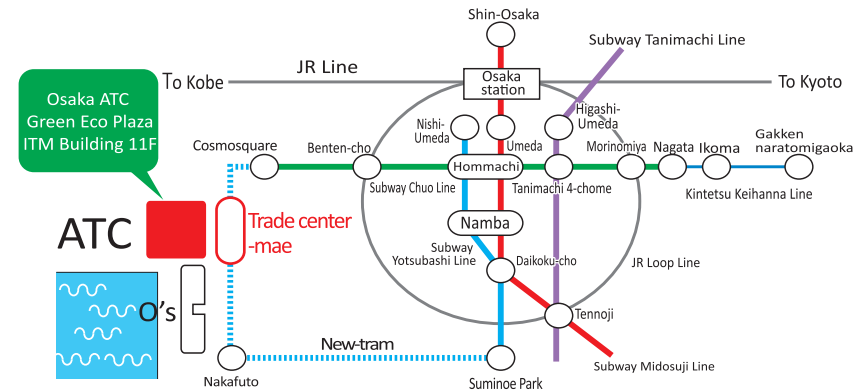

Sunday craft classes are held on the 2nd and 4th Sunday of every month.

## Transportation access has become more convenient

Sakishima Tunnel (driveway, subway), which connects Cosmosquare and the Osaka Chikko area, opened in 1997, and transportation access has become much more convenient. It is approximately 18 minutes on the subway from the center of the Hommachi district in Osaka-city.

### When using the subway and new-tram

### When using the subway/new-tram
